

Curriculum Vitae

I. Personal details

Name : DINH TRANG DIEM
Gender : Female
Date of birth : 2nd January 1994
Place of birth : Thoi Binh Commune, Ca Mau Province
Nationality : Vietnamese
Ethnic group : Kinh
Marital status : Married
Passport number : C5944246
Residential address : Thoi Binh Commune, Ca Mau Province
Phone : +84 - 918 554 389
Email : trangdiemdinh@gmail.com or dtdiem@mae.gov.vn

II. Education background

Qualifications	Name of institution	Location	Start date	End date	Status	Language
Master of Aquaculture	Can Tho University	Ninh Kieu District, Can Tho City, Vietnam	September 2025	September 2027	Uncompleted	Vietnamese
Bachelor of Fisheries Resources Management	Can Tho University	Ninh Kieu District, Can Tho City, Vietnam	August 2012	February 2016	Completed	Vietnamese
High school	Thoi Binh High School	Thoi Binh District, Ca Mau Province, Vietnam	2009	2012	Completed	Vietnamese
Secondary school	Khanh Thoi Secondary School	Thoi Binh District, Ca Mau Province, Vietnam	2005	2009	Completed	Vietnamese

III. English language

1. January 2026: VSTEP level 4 (B2) - Can Tho University.
2. April 2025: IELTS 5.0 - IDP Ho Chi Minh City.
3. August 2016: Certificate of proficiency (English) - level B - Center for Foreign Languages - Can Tho University of Technology.
4. April 2015: Certificate of proficiency (English) - level A - Center for Foreign Languages - Can Tho University.

IV. Short/ training courses

1. The Junior Riparian Professionals training program under the Environmental Management Division from 24 January to 31 December 2024 at the Mekong River Commission Secretariat, Lao PDR.
2. The Regional Training of Trainers on Fisheries Monitoring under the MRC Core River Monitoring Network from 29 July – 6 August 2024 in Ho Chi Minh City, Vietnam.
3. The Riverine Plastic Monitoring Programme from 25-27 June 2024 in Can Tho, Vietnam.
4. Regional Training and Working Session to Improve National Assessments and Synthesis of Capture Fisheries Related Datasets and Information and Their Incorporation into National Basin Development Policies, Plan, and Investments from 22-23 April 2024 in MRC office, Vientiane Capital, Lao PDR.
5. Regional training on the standard operation manual of fish larvae and juvenile drift monitoring from 16-18 November 2022 in Ubon Ratchathani, Thailand.
6. Field Observation on Fish Tagging and Release under JEM Fish Passage Monitoring from 23-28 July 2022 in Khong Island, Champasak Province, Laos.
7. Training of phytoplankton and zooplankton from 20-30 March 2019 by the Institute of Coastal and Offshore Engineering, Vietnam.
8. Training workshop on Fisheries Sampling, Data Analysis, and Interpretation (including Primer/Permanova and Canoco Analysis) from 26-27 February 2018 in Hanoi, Vietnam.

V. Employment History

Name of organization: Research Institute for Aquaculture No.2 (RIA2).

Level in organization: Division of Fisheries Ecology and Aquatic Resources.

Location of organization: 116 Nguyen Dinh Chieu Street, District 1, Ho Chi Minh City, Vietnam.

Workplace telephone number: +84-28-38299592, Fax: +84-28-38230676

Web: www.vienthuysan2.org.vn

Position title: Researcher (October 2017 until now).

Work duties/job descriptions:

- a. Support and practice the studies related to Fisheries assessment and management, fish migration and fish passage, impact assessment of human disturbance on aquatic ecosystems like hydropower and irrigation, ecosystem services assessment, and riverine ecology;

- b. In addition, studies on conserving aquatic habitats and biodiversity, impacts on the nutritional and health status of rural people from overfishing, illegal fishing gear, exotic fish, misuse of chemicals, agro-industrial waste discharge, and dam construction;
- c. Data collection, sampling, and surveying from the field;
- d. Data analysis, data processing, reports, and progress writing for the study and project;
- e. Fish taxonomy, identify the species in the lab;
- f. Other tasks appointed by my Division and RIA2.

VI. Conferences/ Symposiums/ Seminars

1. The 14th National Conference of Young Fisheries Science from 09 – 11 October 2025 at Vietnam National University of Agriculture (Poster).
2. National Dissemination workshop on EHM Implementation and 2023 Results held on 10 March 2025 in Ho Chi Minh City, Vietnam.
3. Lessons Learned from Capture Fisheries Co-Management and Pilot Study to Improve National Assessments and Synthesis of Capture Fisheries held on 12-13 November 2024 in Ho Chi Minh City, Vietnam.
4. The fisheries co-management exchange site visit in Kord Sdao fishing community, Kork Sdao village, Rolea Phea commune, Terk Hout district was held on 5 July 2024 in Cambodia.
5. The 14th MRC Regional Stakeholder Forum was held on 12th June 2024 by the Mekong River Commission Secretariat, Lao PDR.
6. Finalizing the capacity need assessment and capacity building plan report for The Riverine Plastic Monitoring (RPM) Programme held on 5th April 2024 at Mekong River Commission Secretariat, Lao PDR.
7. The 35th Brown Bag Lunch: Which areas are most affected by Floods and Droughts in the Lower Mekong Basin, according to the new regional study? (Heinz Habegger: International Hydrologist Expert and Vincent Hischier: International GIS Expert) was held on 19 February 2024 at the Mekong River Commission Secretariat, Lao PDR.
8. National consultation workshops on the 1st draft of the Capacity Development Action Plan project for the MRC Core River Monitoring Network held on 24 October 2023 in Ho Chi Minh City, Vietnam.
9. Meeting of the Core River Monitoring Network project results held on 25 September 2023 in Ho Chi Minh, Vietnam.
10. Consultation workshop on research results on MBI. The multidimensional biodiversity index assessment - MBI for 2 provinces of Khanh Hoa and Tay Ninh was held on 15 August 2023 at the Southern Institute of Ecology, Vietnam.
11. National Consultation Workshop on the implementation of the MRC Riverine Plastic Monitoring Programme held on 18 July 2023 at Ho Chi Minh City, Vietnam.

12. The 12th National Conference of Young Fisheries Science in Vietnam from 23 – 24 Jun 2023 at Can Tho University, Vietnam.
13. National consultation meetings on the draft core river monitoring network redesign report Vietnam held on 12 October 2022. MRCS support via video conferencing.
14. Regional workshop on the draft manual of fish larvae drift monitoring held on 08 December 2021 (Online conference).
15. 31st meeting of the EGEM on JEM pilots' finalization and progress on the inception for a Core River Monitoring Network in the LMB from 29-30 November 2021 (Online conference).
16. Regional Chlorophyll Training held on 15 September 2021 (Online conference).
17. SHAASAN Webinar 2 – Sustainable Hydropower in Asia hosted by the Institute of Hydroecology MWR & CAS (China) and University of Southampton (UK) held on 14 September 2021 (Online conference).
18. Vietnam's Joint MRC-UNEP National Waste Management Training was held on 10 September 2021 (Online conference).
19. 27th meeting of the EGEM on JEM pilots' first results and concept for a core river monitoring network in the LMB from 07-08 June 2021 (Online conference).
20. The Project “Smart and Sustainable Aquaculture through Effective Biosecurity and Digital Technology” by FAO from 26 -27 March 2021 in Can Tho City, Vietnam.
21. The 23rd EGEM meeting on the development of two technical guidances (1) transboundary fisheries management and (2) restoration of key important habitats in the Mekong lower basin from 22-23 December 2020 (Online conference).
22. Regional meeting on social impact monitoring and vulnerability assessment, regional report of the 2018/2019 survey held on 21 October 2020 (Online conference).
23. Virtual Workshop to develop the interface for an online Shared Vision Planning tool held on 29 September 2020.
24. “Ky Nghi Hong” Volunteer campaign in 2020.
25. The Final National Consultation Meeting on The Third Draft of the Project-Based Action Plan (PBAP) of the Mekong Basin-wide Fisheries Management and Development Strategy (BFMS) 2018-2022 was held on 3 October 2019 in Vietnam.
26. The 10th National Conference of Young Fisheries Science from 30 – 31 July 2019 at Nha Trang University, Vietnam.
27. Traditional camp “Youth Keep the Sea” 2018. The “Let's Clean up the Sea” campaign was held on 11 May 2018 at Beach 30/4 (Can Gio District, Ho Chi Minh City, Vietnam).
28. The 7th National Conference of Young Fisheries Science from 16-17 September 2016 at RIA2, Vietnam.

VII. Participated in projects

Project member	Period	Source of funds
1. Develop technical processes for the management, collection, and treatment of waste in intensive shrimp and pangasius farming in the Mekong Delta region.	2022-2023	Ministry of Agriculture and Rural Development
2. Current status and solutions for managing aquatic resources associated with integrated management of water resources in Dau Tieng Lake, Tay Ninh province.	2022-2023	Department of Science and Technology Tay Ninh
3. Fisheries yield at the landscape scale in the Lower Mekong Basin in Vietnam in 2022.	2022	Mekong River Commission
4. Monitoring changes in inland fisheries resources in the Mekong Delta for research and state management.	Annual (2019-2023)	Mekong River Commission
5. Fish larvae abundance and diversity monitoring in the Mekong and Bassac rivers, Vietnam.	Annual (2018-2023)	Mekong River Commission
6. Input factors affect the productivity of white-legged shrimp farming: A case study in Soc Trang Province, Vietnam.	2021	Tohoku University
7. Assessment of the potential for a green and sustainable shrimp supply chain in Bac Lieu province and propose a roadmap to support smallholder shrimp farmers and traders in the province in transforming their production and business toward low-carbon and sustainable practices.	From Sep 2020 – Feb 2021	UNDP
8. Research to complete and develop a highly efficient and sustainable brackish-water shrimp farming technology process in Vietnam.	2017-2021	Ministry of Agriculture and Rural Development
9. Manage, arrange, and stabilize fish farming areas in the Tri An reservoir, Vietnam.	2019-2020	Department of Science and Technology Dong Nai
10. Model of small-scale fisheries co-management for the coastal estuarine community of fishermen in Thanh Phong commune, Thanh Phu District, Ben Tre Province, Vietnam.	2019-2020	Ministry of Education and Training (State Budget)

11. Preliminary investigation of the current status of inland fisheries resources in the South, serving to complete the investigation of aquatic resources for the period of 2018-2020.	2018-2020	Directorate of Fisheries (State Budget)
12. Supporting sustainable aquaculture development in the Mekong Delta through public-private partnership.	2019	VINAFISH
13. Survey and assess the current status of fisheries resources, planning the functional areas to protect and use the biodiversity–fishery of wetland areas in Tri An reservoir, Vietnam.	2019	Department of Science and Technology Dong Nai
14. Research on technical factors affecting the fishery productivity of the wild shrimp model in Nhung Mien and Nam Can, Ca Mau.	20 th Aug-30 th Sep 2019	World Wildlife Fund
15. Building a model of intensive farming of white-legged shrimp in the direction of reducing greenhouse gas emissions in the Mekong Delta.	2018	OXFAM

VIII. Prizes

1. University graduation

Bachelor's degree in engineering at Can Tho University.

Majors: Fisheries Resource Management.

GPA: 3.2/4.0 (very good). Mode of study: Full-time.

2. Workplace

- Certificate of merit by the Trade Union base (in 2023).

- Certificate of merit by the Director of RIA 2 (in 2019 and 2021).

- Certificate of merit by the Director about technical innovation: “Calculate the total number of larval fish using the proportional multiplication method” (in 2023).

IX. Publications: articles and reports

1. Title of articles

- **Dinh Trang Diem**, Nguyen Nguyen Du, Tran Thuy Vy and Huynh Hoang Huy (2020). Assessment of the current status of the *Pangasiidae* family in the lower Mekong River from 2017 to 2019. Journal of Mekong Fisheries No. 17. Pages 70-81.
- **Dinh Trang Diem** and Tran Van Viet (2016). Evaluation of the effectiveness of shrimp farming models in Thoi Binh district, Ca Mau province. The 7th National Conference of Young Fisheries Science in Vietnam. 10 pages.

2. List of co-authors of publications

- **Technical experts:** Dr Lai Tung Quan, Mr Parnpan Worranut, Ian G. Cowx, **Dinh Trang Diem**. Mekong River Commission. (2023). Fish Abundance and Diversity Monitoring Regional Report 2018–2022. Vientiane: MRC Secretariat. 34 pages.
- Doan Van Bay, Phan Thanh Lam, Nguyen Van Phung, **Dinh Trang Diem**, Dinh Xuan Lap and Nguyen The Dien (2021). Shrimp farming incorporates a cooperative model chain link. The Journal of Mekong Fisheries No. 21. Pages 88-104.
- Tran Thuy Vy, Nguyen Nguyen Du, **Dinh Trang Diem** and Huynh Hoang Huy (2020). The diversity and abundance of larvae and juvenile fish of the *Pangasiidae* family upstream of the Mekong and Bassac rivers during the periods of 2017 – 2019. Journal of Mekong Fisheries No. 17. Pages 82-92.
- Doan Van Bay, Phan Thanh Lam, **Dinh Trang Diem**, Nguyen Song Ha, Nguyen Hoang Linh, Huynh Quoc Khoi, Le Kim Yen, Dang Bich Duy, Pham Hoang Vu, Vo Van Be and Phan Van Ha (2019). Experimenting intercrop all male giant freshwater prawn in rotation rice-shrimp farming systems. The 10th National Conference of Young Fisheries Science in Vietnam. 17 pages.

3. Reports

- Phan Thanh Lam, Nguyen Van Phung, Nguyen Nguyen Du, **Dinh Trang Diem**. Annual Report for the MRC Environment Management Division (Five years, from 2019 to 2023). Fish Abundance and Diversity Monitoring in the Mekong Delta, Vietnam.
- Nguyen Nguyen Du, **Dinh Trang Diem**. Annual Report for the MRC Environment Management Division (Six years, from 2018 to 2023). Fish Larvae Drift and Juvenile Monitoring in The Mekong Delta Vietnam.
- Phan Thanh Lam, Nguyen Nguyen Du, **Dinh Trang Diem**, Do Van Hoang, Vu Minh Thien, Lai Tung Quan (2022). Technical report: Fisheries Yield at Landscape Scale in the Lower Mekong Basin in Vietnam in 2022. 76 pages.
- Phan Thanh Lam, Nguyen Nguyen Du, Do Van Hoang, Thoi Ngoc Bao, **Dinh Trang Diem**, Tran Thuy Vy, Huynh Hoang Huy, Hoang Ngoc Diem, Than Van Trung, Doan Van Hoan (2019). Project report: Manage, arrange, and stabilize fish farming areas in the Tri An reservoir. 277 pages.

XI. Referees

1. Phan Thanh Lam, PhD

+Title: Deputy Director of the Research Institute for Aquaculture 2 (RIA2).

+Phone number: +84-90 9280275

+Email: pthanhlam@yahoo.com

+Relation: My current Deputy Director.

2. Vu Vi An, PhD

+Title: Research fellow at Charles Sturt University, Australia.

+Phone number: +84-909 268 220

+Email: anria2@gmail.com

+Relation: My previous deputy chief of the Division of Fisheries Ecology and Aquatic Resources.

3. Nguyen Nguyen Du

+Title: Deputy Chief of the Division of Fisheries Ecology and Aquatic Resources.

+Phone number: +84-918 437 618

+Email: nguyendugofish@gmail.com

+Relation: My deputy chief of the Division of Fisheries Ecology and Aquatic Resources.
